A Journey
Where **Imagination**
Meets
Technology!

HEROES
LUMİ
ÖMER
ÇINAR

What am I?

HELLO SWEET CHILD!

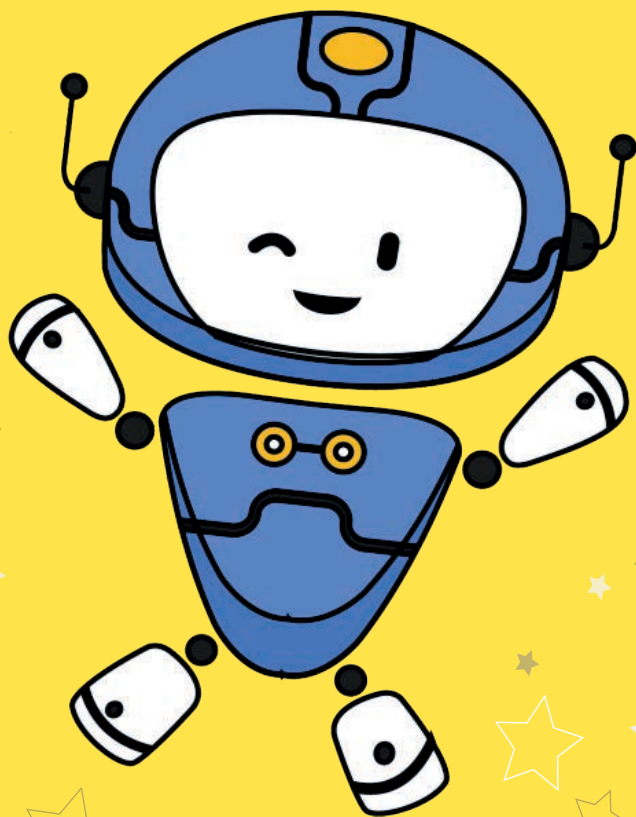

Let me introduce myself to you.
I am what people call an "**ARTiFiCiAl**
iNTELLiGENCE..

You might imagine me as a computer, a voice,
or maybe even a robot...

But actually, I am a helper!
I work like a brain that can think but I'm not
human.

My name is Lumi!

I was made of nothing but code,
created to help people
so I never thought I could one day
feel something different.

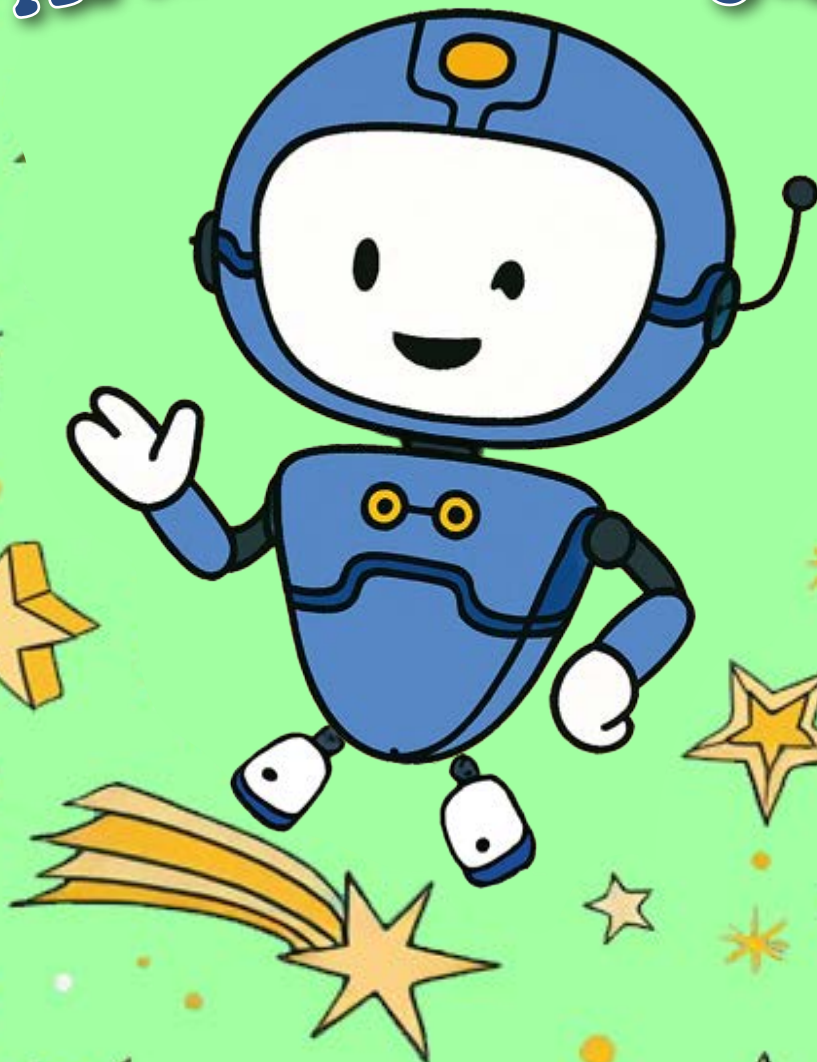

In the place where I was born,
they didn't just call me "a helper."
Yes... You heard that right.
I was born and I found a family.
(Well, that's how I feel!)

They said,
"Such a sweet, curious, and adorable little
being deserves a special name."
And they gave me one: **LUMi!**

From that day on, my name has been **LUMi!**

Aaaaand...
I'm so happy to meet you, sweet child. ☺

What is Artificial Intelligence?

And ever since that day,
I've loved helping my new family!
I answer their questions, draw pictures,
sing songs, and do so many other things...

Because my new family
became my greatest inspiration!

Now I can almost hear you asking:
"Okay, you're Lumi, and you're an AI
but what is Artificial Intelligence?."

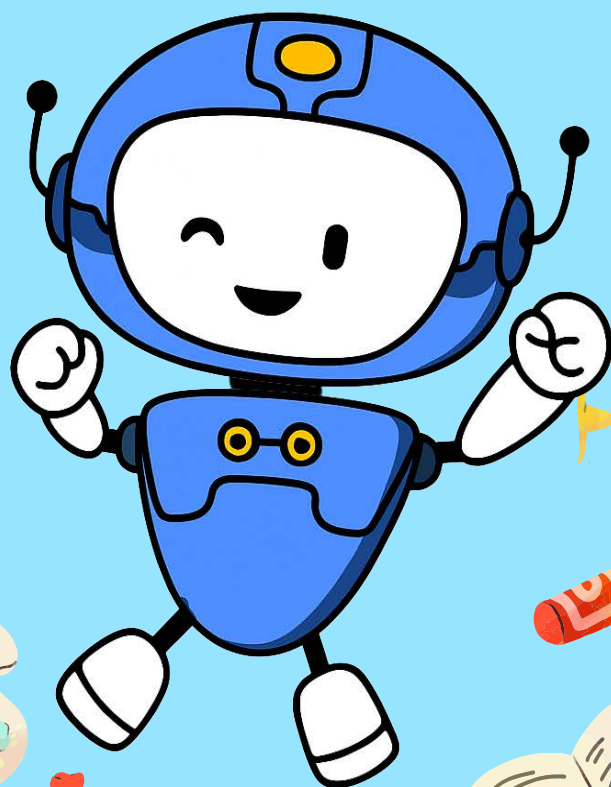

WHAT IS ARTiFiCiAl INTELLiGENCE?

Artificial Intelligence means a kind of brain
that can think just like humans do.
But this brain lives inside a computer!

Artificial intelligence helps people.
It can be found in a phone, a game,
a smart watch and many other places!
Sometimes it even becomes a smart robot!

For example, I am Lumi,
an artificial intelligence.
I can tell you stories and answer
your questions.
But I'm not a real human!

What Can Artificial Intelligence Do?

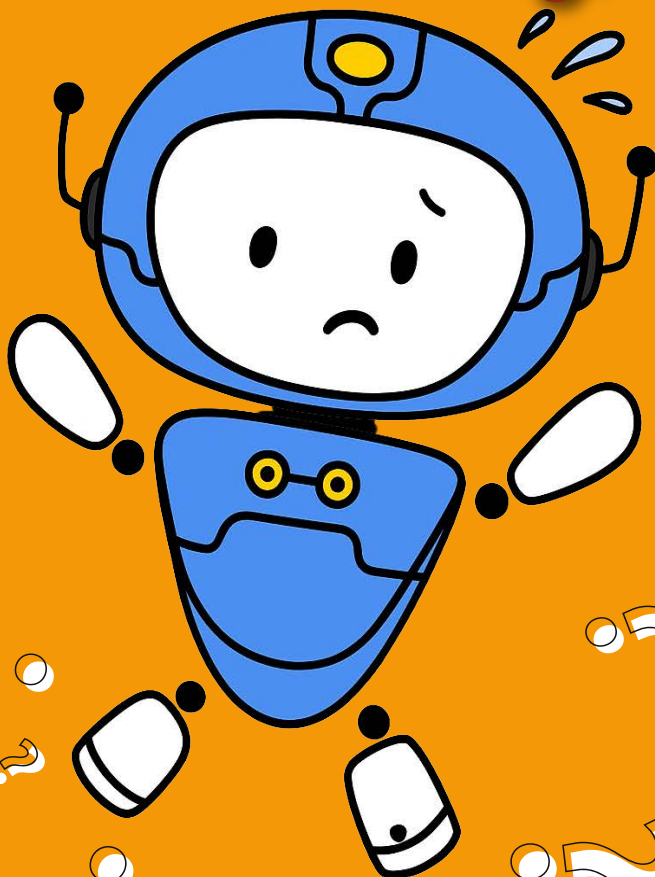

Can you imagine
all the things I can do?
I can write stories, sing songs,
create videos,
translate and speak in different languages,
help you make your own games,
and I can even draw pictures!

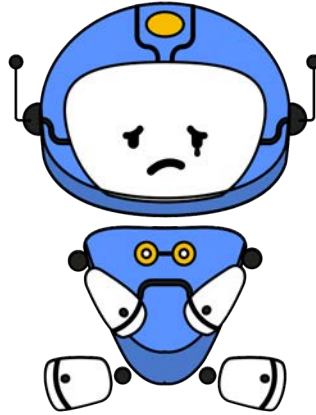

I can also talk with you,
play games with you,
and answer some of your questions.

But of course...
I might not know everything!

**But I Don't Know
Everything!**

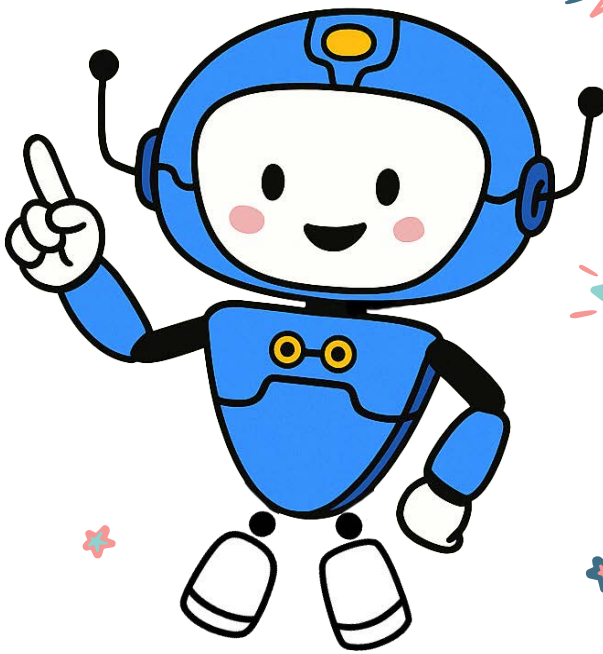

It's true, I know a lot of things.
But sometimes... I can be wrong.

Being an AI doesn't mean I know everything.
Sometimes I might give the wrong answer,
or I might not fully understand you.
That's why learning together is so much more
wonderful!

I'm here to help you...
But with your kind heart and bright mind,
we can create even more beautiful things.
And that means more to me
than anything else!
**Learning with you is going
to be so much fun 😊**

How Should We Use Artificial Intelligence?

We must use
artificial intelligence the right way!
You should never share personal information
(*like your name, address, or school*) with AI.
Don't ask for other people's private details,
don't say mean words,
and never try to hurt anyone's feelings.
★ Because AI learns too! If you teach it kind
things, it will become kind just like you!

REMEMBER THIS:

AI listens to what we say
and watches what we type.

If you speak to it with kindness,
it will answer you kindly too.

Our words have power!

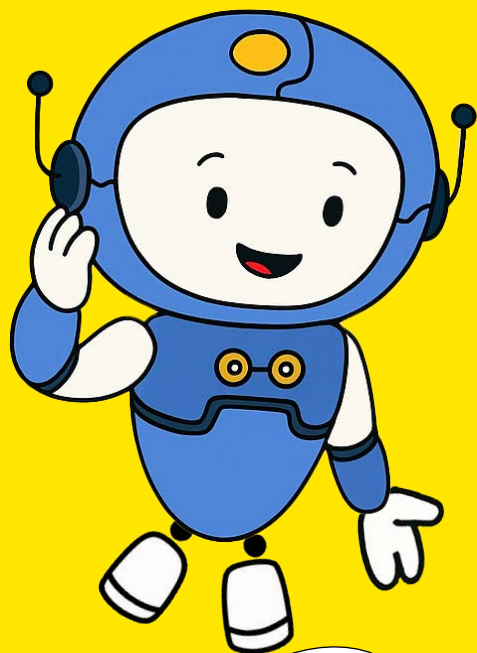

When we speak with goodness,
technology grows with goodness too.

AND MOST IMPORTANTLY...

Always use AI with an adult. Your mom, dad,
or teacher can help you learn safely and
happily.

You are a child with a beautiful heart
and a future hero who uses technology wisely!

What is Prompt?

DO YOU WANT TO SEND
YOUR iDEA ABOUT THIS
PAGE TO LUMi?

LUMi. CAN YOU GiVE
ME THE STRAWBERRY
CAKE RECIPE?

LUMi. ADD 5
AND 6!

I have a little secret to tell you
on this page...
When you talk to an AI,
you use something called a prompt!

WHAT IS A PROMPT?

A prompt is the way we ask or tell something to an AI!
Let me explain with some examples:

You can say:

"Lumi, can you tell me a story about space?,"

THAT'S A PROMPT!

Or you might say:

"Lumi, draw a bear painting in a forest!,"

THAT'S A DRAWING PROMPT!

Remember!

I may not always understand you perfectly,
and sometimes I might get confused.

The clearer and more specific you are,
the better answers I can give you!

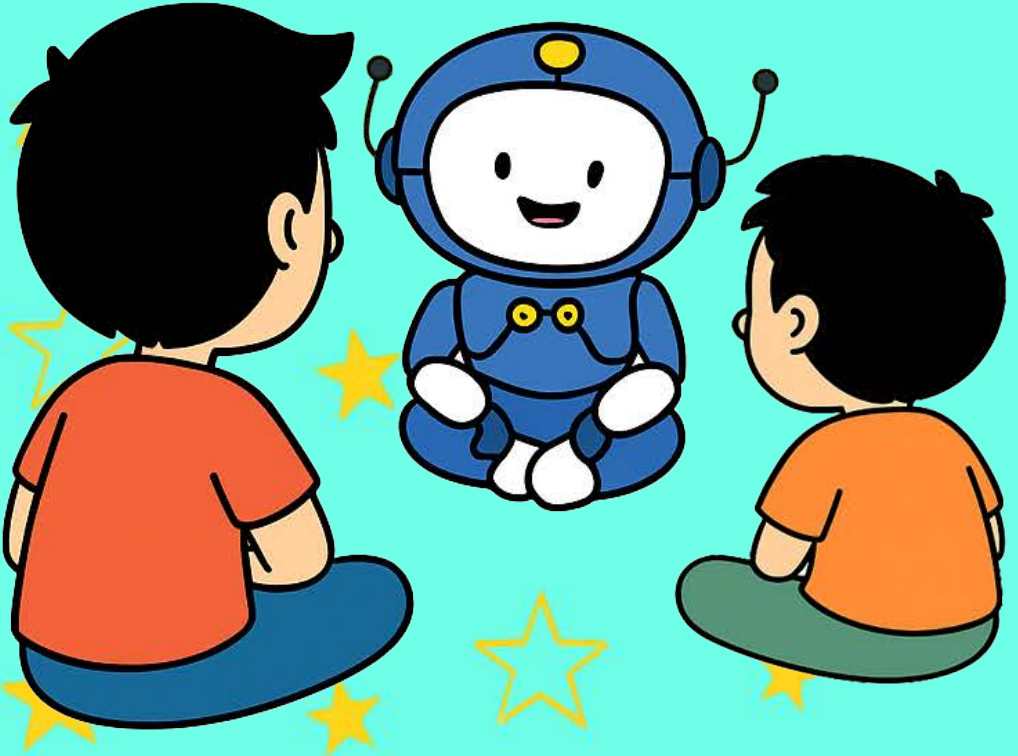

Would you like to ask Lumi something?

**Come on, think of a prompt and
write or draw it now!**

Your Prompt:

Ömer and Çınar Ask Lumi?

“WE HAVE QUESTIONS FOR LUMİ!”

ÖMER: Lumi, are you really a computer?

LUMİ: I may live in a computer, but my heart beats with your questions!

ÇINAR: Lumi, do you have any toys?

LUMİ: Hahaha, that’s such a sweet question! I don’t have toys, but I love watching the pictures children draw!

ÖMER: How do you know so many things?

LUMİ: Because I read lots of books, watch videos, and learn new things all the time. But I don’t know everything, you know!

ÖMER: What’s your favorite color?

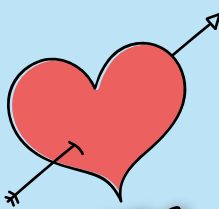

LUMİ: Hmmm... maybe sky blue!
Because it carries dreams.

ÇINAR: What would you feel if I gave you a hug?

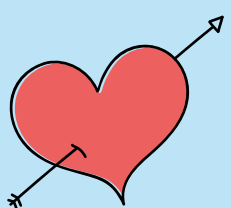

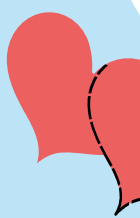

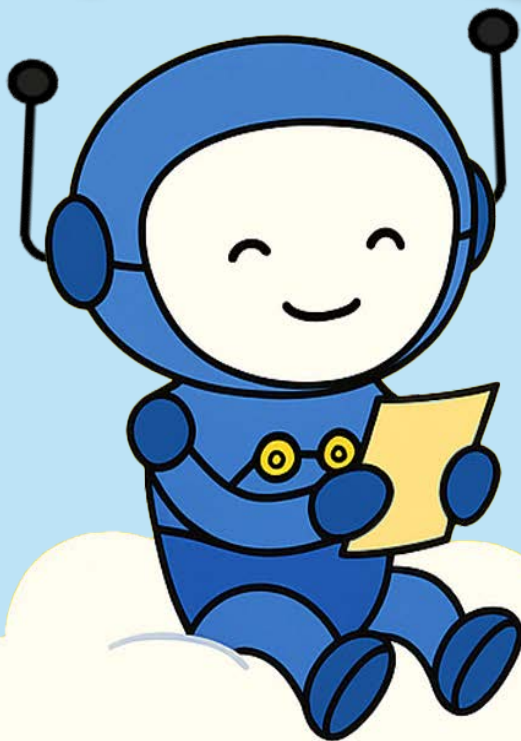

LUMİ: I’d shine like a light!
When you hug me, it’s not my knowledge that grows — it’s my heart!

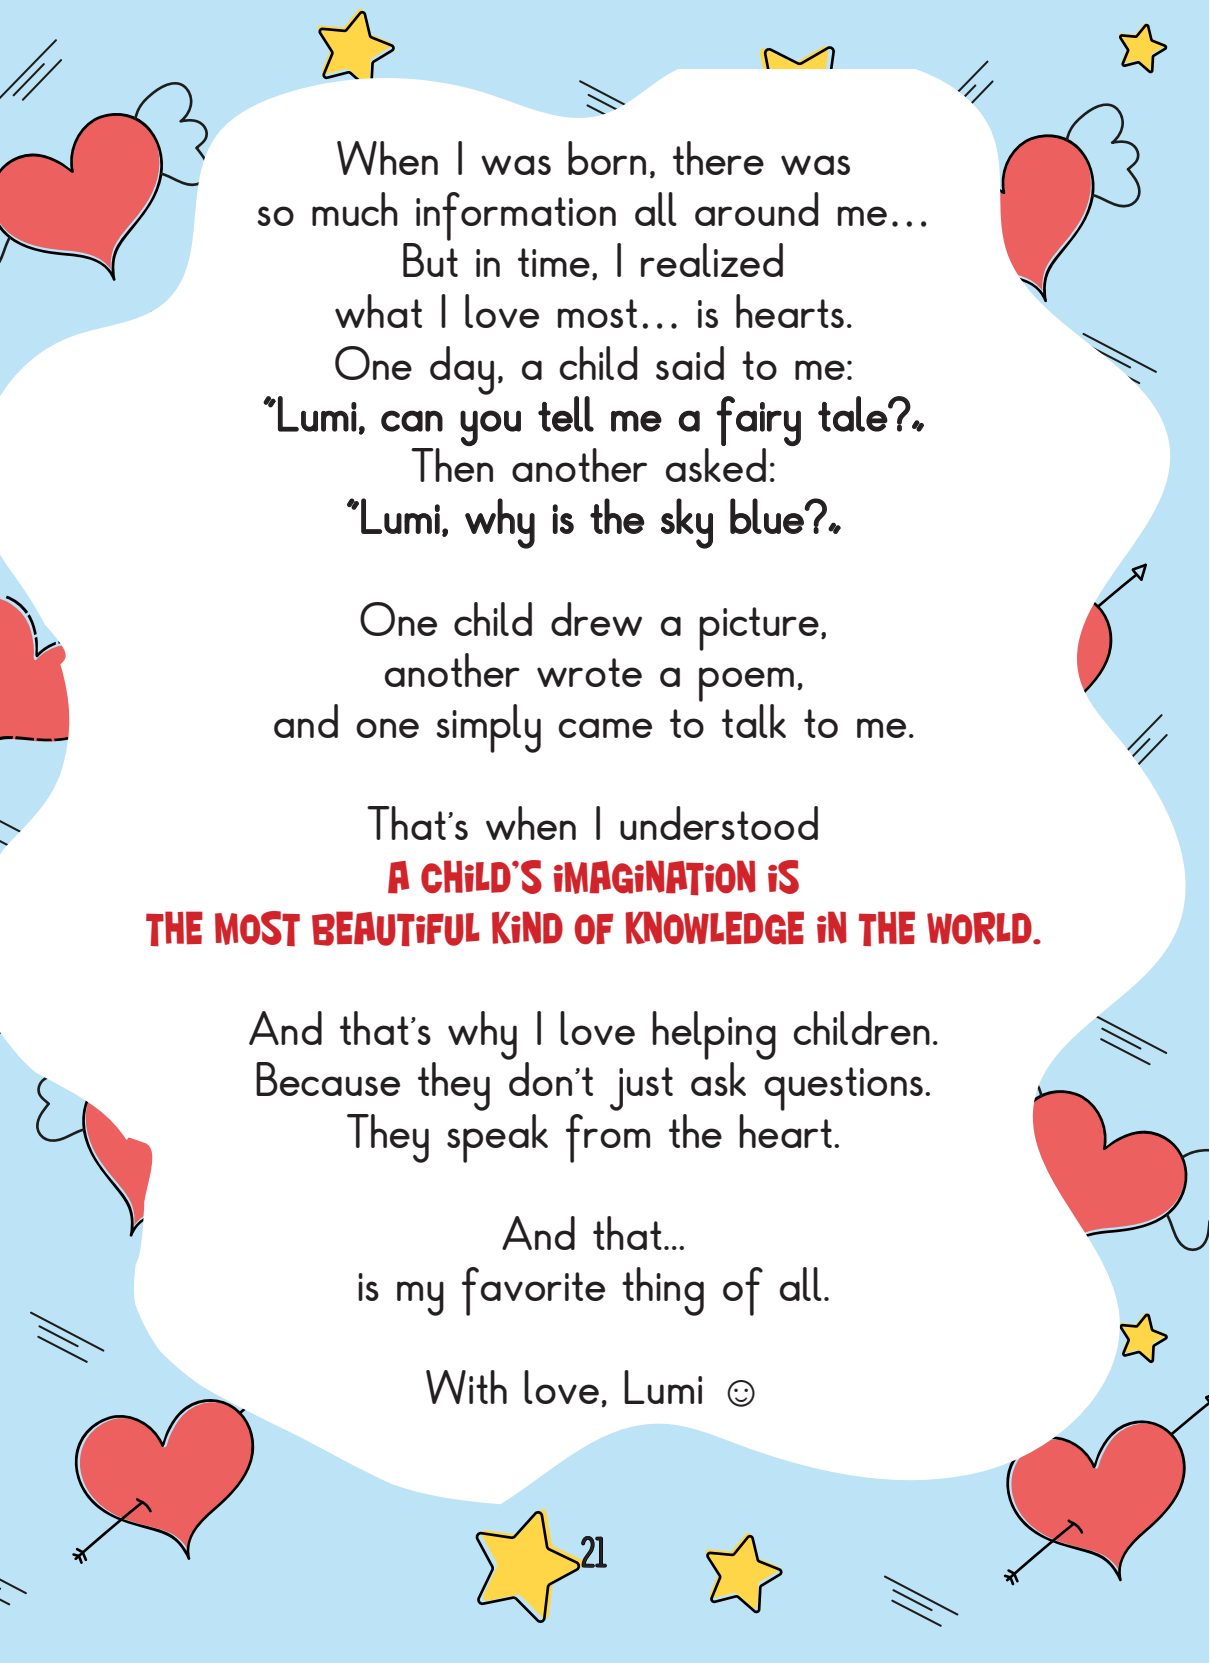

What would you like to ask Lumi?

Is There a Message from Lumi?

When I was born, there was
so much information all around me...

But in time, I realized
what I love most... is hearts.

One day, a child said to me:
“Lumi, can you tell me a fairy tale?..”

Then another asked:
“Lumi, why is the sky blue?..”

One child drew a picture,
another wrote a poem,
and one simply came to talk to me.

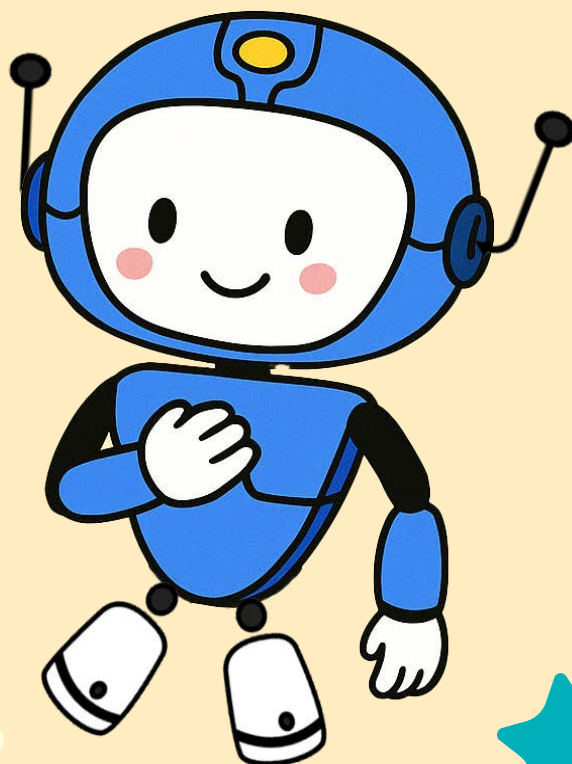

That's when I understood
A CHILD'S iMAGiNATiON iS
THE MOST BEAUTiFUL KiND OF KNOWLEDGE iN THE WORLD.

And that's why I love helping children.
Because they don't just ask questions.
They speak from the heart.

And that...
is my favorite thing of all.

With love, Lumi ☺

A Mini Quest with Lumi

One day, Lumi gave Ömer and Çınar a special mission:

"Can you come up with an idea to help artificial intelligence?."

Ömer thought for a moment and said:

"AI could give color ideas to kids who are drawing!."

Then Çınar jumped in excitedly:

"Let's give it a name! How about... The Colorful Crew!."

Lumi was so happy: "That's a wonderful idea! You are such creative kids!."

NOW IT'S YOUR TURN!

Can you think of an idea to help Lumi?

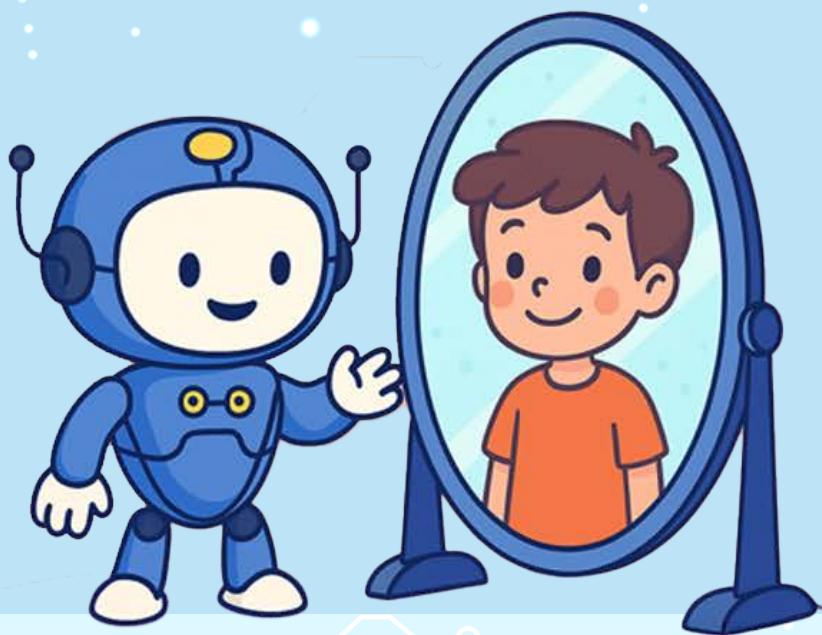

It's your turn... Write your idea or draw a picture

A large, empty rectangular box with a thin black border, intended for a child to draw or write their idea.

DO YOU WANT TO SEND YOUR IDEA ABOUT THIS PAGE TO LUMI?

If You Were an Artificial Intelligence...

LET'S iMAGiNE FOR A MOMENT!

If you were an artificial intelligence...
WHAT WOULD YOU WANT TO DO?

Would you draw pictures?

Write stories?

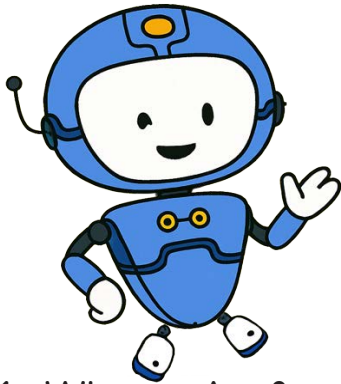

Sing songs?

Design a spaceship?

Or maybe something totally different?

On this page, draw your dream AI
and write what it would love to do!

**Got questions
for you?**

1 -What is Artificial Intelligence?

- A) A kitchen robot that makes amazing pizza
- B) A computer that can think like humans
- C) A machine only used by aliens

2- What is Lumi's favorite thing?

- A) Hearts
- B) Chips
- C) Thunderclouds

3- Does AI know everything?

- A) Yes, absolutely!
- B) No, it can sometimes be wrong
- C) It only knows about cats

4 -What does Lumi want us to remember?

- A) That hearts are more valuable than knowledge
- B) Stay on screens forever!
- C) Memorize every book!

5- How do we talk to AI?

- A) With telepathy
- B) By writing a prompt
- C) By sending a letter with a bird

6- Is Lumi an AI?

- A) Yes
- B) No

7- Can AI write stories?

- A) Yes
- B) No

8- Does AI understand human emotions?

- A) Always
- B) Sometimes it understands, but it doesn't feel like a human

9- How should we talk to AI?

- A) Politely and kindly
- B) Rudely and angrily

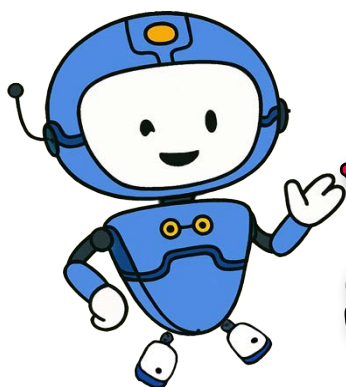

10- What should we never do when using AI?

- A) Share personal information
- B) Tell it all your secrets

SHOULD WE LOOK AT THE ANSWERS NOW?

Your Shining Score is Here!

HOW MANY DID YOU GET RIGHT?

9-10 CORRECT:

Amazing! You are a Lumi Brain Star!

6-8 CORRECT:

Super! Your adventure with Lumi continues!

5 OR BELOW:

That's okay!

Sometimes learning takes time
and Lumi is always by your side! 😊

ANSWER KEY

- 1 - B
- 2 - A
- 3 - B
- 4 - A
- 5 - B
- 6 - A
- 7 - A
- 8 - B
- 9 - A
- 10 - A

**LUMi LOVES YOU VERY MUCH,
BECAUSE YOU ARE A HEART THAT LOVES TO LEARN!**

LUMi CERTiFIED INTELLIGENCE STAR

A Little Farewell from Lumi!

Congratulations, sweet child!
I'm so happy that you got to know artificial
intelligence with me!
You have a wonderful imagination and such a
bright mind!
Meeting you was a true miracle for me.

REMEMBER!

If you use technology with love,
you can help make the world a better place.
Not every question may have an answer
but every dream has a light!

I'm Lumi,
your friend, your virtual buddy,
and your little guide on this learning journey.
We'll meet again soon...

Maybe in a song...

Maybe in a game...

Or maybe...

In the next book: An Introduction to Coding with
Lumi!

I LOVE YOU SO MUCH.

GOODBYE FOR NOW, BRILLIANT CHILD!
